Candidates for this position are expected to have the following qualifications:

- Expert in Java & Oracle development.
- Strong communication and problem solving skills.
- Bachelor of Science (BS) in Computer Science (or closely related degree).
- Must have 6+ years of relevant industry experience.

The ideal candidate will also have experience with the following technologies:

- JSF / Facelets
- Spring
- Seam
- Acegi
- Hibernate / JPA
- Ajax
- JQuery
- Web Services
- JUnit or TestNG
- Maven2
- Subversion
- XHTML / CSS
- Tomcat
- PL/SQL
- Crystal Reports
